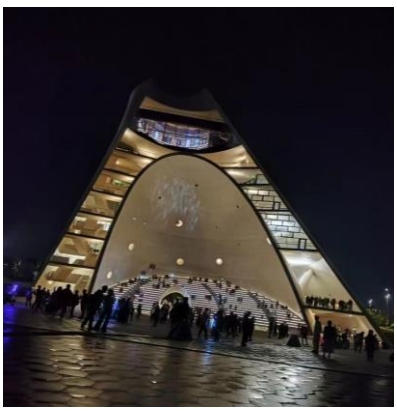
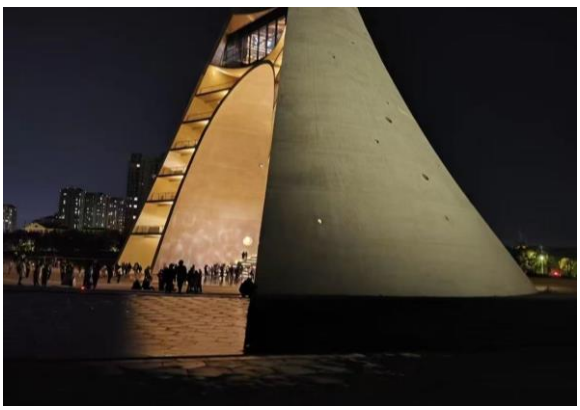
▼ Linear lighting, Neon, Flexible Wall Washer…

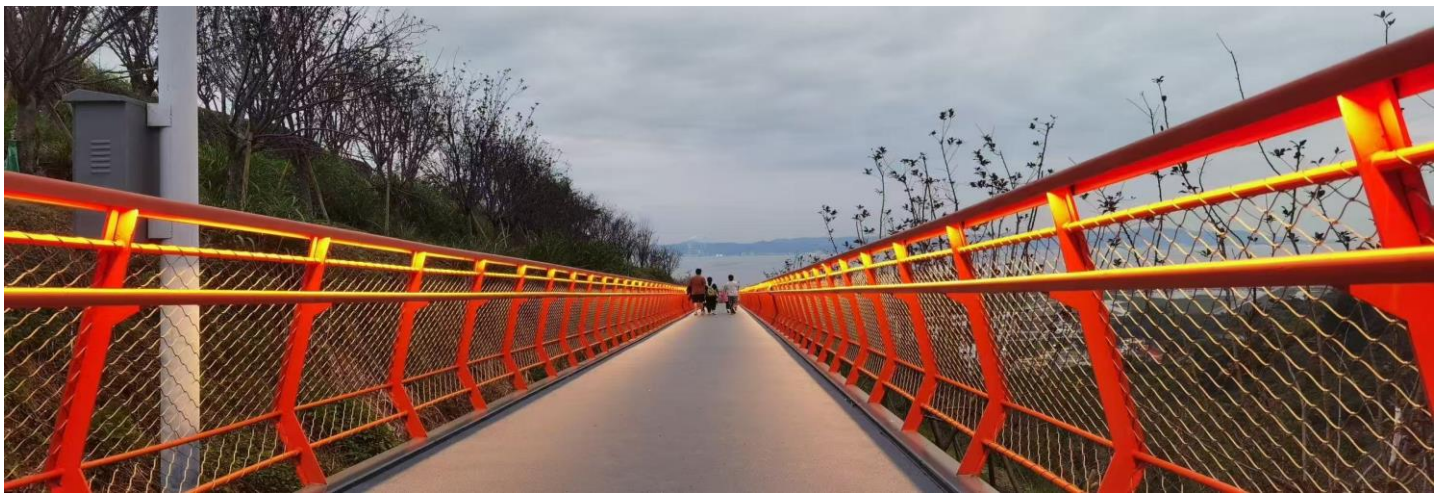
Linear lighting enhances the beauty and appeal of the nighttime environment by highlighting the unique features of the landscape through creative lighting design.

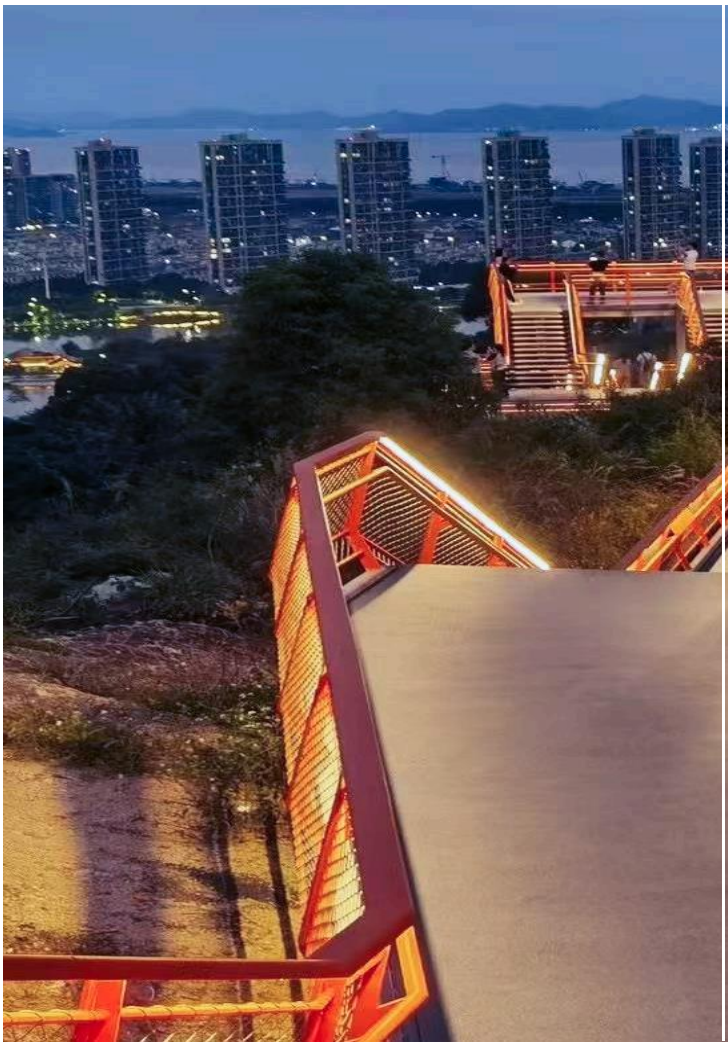
It also improves the safety and visibility of public areas, providing a comfortable and pleasant nighttime experience for residents and visitors.

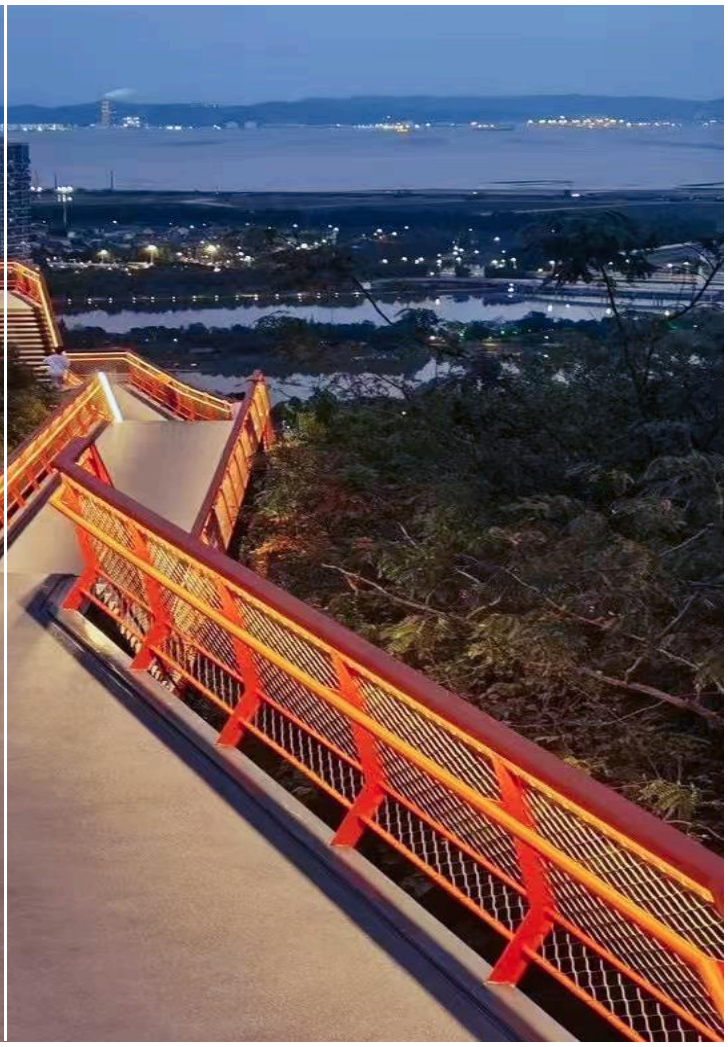
▼ Project gallery











▼ About us

▼ Who are we?

At RIDILUX LIGHTING, we focus on Neon and Strip Light.

Professional solution, efficient working style, high degree of correspondence, one-stop service are our core advantage.

▼ Who do we serve?

Serve lighting designer,consultant, engineering company,construction company and etc,; In particular, it is loved by small and medium-sized customers, such as startups, small companies, new ventures, and individual creatives.

Dedicated to providing swift and cost-effective access to advantageous lighting solutions, ensuring that every aspiring business and creative mind can illuminate their space with style, efficiency, and affordability.

▼ What value do we create?

Create simple and efficient lighting collaboration that saves client's time.

Client-Centric Approach, Expert Guidance, Tailored Solutions, Supply Chain Efficiency, Industry Insider Knowledge, Comprehensive Service

▼ Our team member

▼ Product Manager

Mr Zhu comes from Ledmy, a veteran leader in the light strip industry. He is well-versed in Ledmy's operational models and product technologies, having participated in the R&D of core products and mastered the entire process from technical details to cost control.

▼ Electronic Engineer

Mr Tian comes from Colorsled, a key player in the industry. With solid expertise in the field, he has deep knowledge of Colorsled's technical frameworks and project operation modes, and is proficient in the entire process from circuit design to product implementation.

▼ Structural engineer

Mr Lu comes from UpShine, a giant in outdoor industrial lighting. He has in-depth expertise in the company's product architecture and technical standards, and is proficient in the full process of structural design for outdoor lighting, from material selection to anti-corrosion and waterproofing solutions.

▼ Senior Sales Manager

Mrs Evelyn comes from Shylon, a leading enterprise in outdoor landscape industry. She is well-versed in the operation models of key clients and brand management, and has extensive experience in large-scale projects.

▼ Operation Manager

Mr Sookie has rich experience in large-scale projects and exclusive agency operation models, having successfully implemented many well-known projects in Europe. She boasts strong client stickiness, demonstrating exceptional capability in maintaining long-term cooperative relationships.

▼ Assistant

Mrs Shirley is our Chief Foreign Trade Coordinator, specializing in handling complex orders. She excels in client communication and internal coordination, with a proven track record of high client satisfaction.

Characteristic

1 Anti-Yellowing — Stays Clear for 5+ Years
Crafted with Fumed Silicone (-60~70°C), offering outstanding UV resistance, thermal stability, and anti-aging performance. No yellowing or cracking over time—perfect for long-term outdoor applications.

2 IP67 Waterproof — Built for Harsh Environments
Integrated molding with pressure-sealed end caps ensures a tight seal against water, dust, and moisture. Reliable even in rain, snow, humidity, or coastal conditions.

3 Superior Structural Integrity — Anti-Break, Anti-Twist
Built with 3-ounce thick 3570 copper boards (3× standard thickness) and precision board-to-board welding, proven to withstand 1,000 torsion cycles. Ideal for high-stress installation or transport.

4 True 5-Year Warranty — Backed by Premium Components
Equipped with OSRAM/Lumileds LEDs and premium IC drivers, every unit undergoes thousands of internal tests to ensure reliability. Full 5-year performance warranty guaranteed.

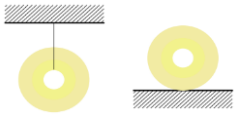
NEON-10C	Dia.25mm	20 W	700~800	800~1000	DC24V	33.33
NEON-10D	Dia.40mm	20 W	700~800	800~1000	DC24V	/
NEON-10E	Dia.50mm	20 W	700~800	800~1000	DC24V	/

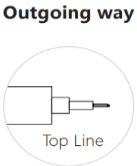
Notes: Mono (2700K,3000K,3500K,4000K,4500K,5000K, Red, Green, Blue, Amber)

Installation



Surface **Recessed**

Entry cable



Accessories

End caps **Plastic Mounting Clip**

SMD Strip Light

Characteristic

1.High Efficiency: Energy-saving performance with high efficacy.

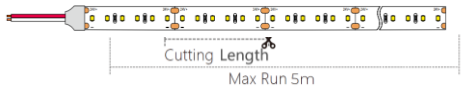
2.True Color Rendition: Ra95+ and Ra80+ CRI options with high R9 and R13 values for premium lighting quality.

3.Customizable & Flexible: Mini cut design and multiple PCB widths for versatile applications.

4.Durable & Reliable: Reinforced LED bracket enhances product lifespan.

5.Cost-Effective: Efficient design reduces material waste, ideal for furniture lighting.

6.Comprehensive Warranty: 3-year warranty ensures product quality and performance.



Optional IP Rating

Family Matrix with three different size.

Bending angle: Φ > 80-120mm

Application: widely used in outdoor architectural and landscape lighting.

Option

Color temperature

Mono

Control method

ON/OFF

Model	SIZE (mm)	POWER (W/M)	Luminous(LM) For Mono	Luminous(LM) For chromatic	VOLT	CUTTING (mm)
NEON-11A	8mm	4.8 W	350~420	/	DC24V	100
NEON-11B	8/10/12mm	9.6 W	550~650	/	DC24V	50
NEON-11C	8/10/12mm	12	700~800	/	DC24V	35
NEON-11D	8/10/12mm	14.4 W	1000~1200	/	DC24V	33.3
NEON-11E	10/12mm	19.2 W	1350~1600	/	DC24V	25

Notes: Mono (2700K,3000K,3500K,4000K,4500K,5000K, Red, Green, Blue, Amber)
