▼ Linear lighting, Neon, Flexible Wall Washer...

Linear lighting enhances the beauty and appeal of the nighttime environment by highlighting the unique features of the landscape through creative lighting design.

It also improves the safety and visibility of public areas, providing a comfortable and pleasant nighttime experience for residents and visitors.

▼ Project gallery

▼ Company Profile

▼ Who are we?

At RIDILUX LIGHTING, we focus on Neon and Strip Light.

Professional solution, efficient working style, high degree of correspondence, one-stop service are our core advantage.

▼ Who do we serve?

Serve lighting designer, consultant, engineering company, construction company and etc.; In particular, it is loved by small and medium-sized customers, such as startups, small companies, new ventures, and individual creatives.

Dedicated to providing swift and cost-effective access to advantageous lighting solutions, ensuring that every aspiring business and creative mind can illuminate their space with style, efficiency, and affordability.

▼ What value do we create?

Create simple and efficient lighting collaboration that saves client's time.

Client-Centric Approach, Expert Guidance, Tailored Solutions, Supply Chain Efficiency, Industry Insider Knowledge, Comprehensive Service

▼ Workshop

Flex Wall Washer Light

Characteristic

1 Anti-Yellowing — Stays Clear for 5+ Years

Crafted with Fumed Silicone (-60~70°C), offering outstanding UV resistance, thermal stability, and anti-aging performance. No yellowing or cracking over time—perfect for long-term outdoor applications.

2 IP67 Waterproof — Built for Harsh Environments

Integrated molding with pressure-sealed end caps ensures a tight seal against water, dust, and moisture. Reliable even in rain, snow, humidity, or coastal conditions.

3 Superior Structural Integrity — Anti-Break, Anti-Twist

Built with 3-ounce thick 3570 copper boards (3× standard thickness) and precision board-to-board welding, proven to withstand 1,000 torsion cycles. Ideal for high-stress installation or transport.

4 Versatile Beam Options — Wall Washing & Uplighting Capable

Supports multiple beam angles, enabling precise light control for wall washing, floodlighting, or long-distance projection. Perfect for architectural lighting and flexible outdoor applications.

5 True 5-Year Warranty — Backed by Premium Components

Equipped with OSRAM/Lumileds LEDs and premium IC drivers, every unit undergoes thousands of internal tests to ensure reliability. Full 5-year

Characteristic

- 1 Anti-Yellowing — Stays Clear for 5+ Years
Crafted with Fumed Silicone (-60~70°C), offering outstanding UV resistance, thermal stability, and anti-aging performance. No yellowing or cracking over time—perfect for long-term outdoor applications.
- 2 IP67 Waterproof — Built for Harsh Environments
Integrated molding with pressure-sealed end caps ensures a tight seal against water, dust, and moisture. Reliable even in rain, snow, humidity, or coastal conditions.
- 3 Superior Structural Integrity — Anti-Break, Anti-Twist
Built with 3-ounce thick 3570 copper boards (3× standard thickness) and precision board-to-board welding, proven to withstand 1,000 torsion cycles. Ideal for high-stress installation or transport.
- 4 True 5-Year Warranty — Backed by Premium Components
Equipped with OSRAM/Lumileds LEDs and premium IC drivers, every

Characteristic

1 Anti-Yellowing — Stays Clear for 5+ Years

Crafted with Fumed Silicone (-20~60°C), offering outstanding UV resistance, thermal stability, and anti-aging performance. No yellowing or cracking over time—perfect for long-term outdoor applications.

2 IP67 Waterproof — Built for Harsh Environments

Integrated molding with pressure-sealed end caps ensures a tight seal against water, dust, and moisture. Reliable even in rain, snow, humidity, or coastal conditions.

3 Superior Structural Integrity — Anti-Break, Anti-Twist

Built with 3-ounce thick 3570 copper boards (3× standard thickness) and precision board-to-board welding, proven to withstand 1,000 torsion cycles. Ideal for high-stress installation or transport.

4 True 5-Year Warranty — Backed by Premium Components

Equipped with OSRAM/Lumileds LEDs and premium IC drivers, every unit undergoes thousands of internal tests to ensure reliability. Full 5-year

Family Matrix with three different size.

Characteristic

- 1.High Efficiency: Energy-saving performance with high efficacy.
- 2.True Color Rendition: Ra95+ and Ra80+ CRI options with high R9 and R13 values for premium lighting quality.
- 3.Customizable & Flexible: Mini cut design and multiple PCB widths for versatile applications.
- 4.Durable & Reliable: Reinforced LED bracket enhances product lifespan.
- 5.Cost-Effective: Efficient design reduces material waste, ideal for furniture lighting.
- 6.Comprehensive Warranty: 3-year warranty ensures product quality and performance.
